

Triple X & Trisomy X Support Group Australia Annual Conference

FRIDAY, 4TH MAY 2018

GENETIC ALLIANCE AUSTRALIA

AMANDA MILLER

Welcome Address

Hello &
welcome

Thank you Jenny, Steff & Diane

Genetic Alliance

Introduce yourself to the group please!

Your name
Where do you live?

Introduction

Briefly explain your association with Trisomy X.
What do you hope to get out of today?

Collaborative approach – Jigsaw activity

A collaborative group activity that breaks tasks into pieces that the group assembles to complete (similar to a jigsaw puzzle.)

An expert group will inform the whole group after the last rotation (4th rotation).

Collaborative topics

- ▶ **Group 1. What do Trisomy X girls find the most problematic?**
- ▶ **Group 2. What has helped your Trisomy X daughter the most?**
- ▶ **Group 3. What advice would you give to a new Mum of a daughter with Trisomy X?**
- ▶ **Group 4. What would you like to see in the future re-support for girls/women with Trisomy X and how can the Trisomy X Support Group Australia help achieve this?**

Expert group: Sharing time

Triple X & Trisomy X Support Group Australia

Thank you for your collaboration and participation
